

**Listing title:** Qualified Marine Systems Electrician

**Company:** R marine Flagship

**Pay and benefits:** car, phone, uniform, friendly work environment

## **Qualified** Marine Systems Electrician

*Flagship Marine is a premium brand marine broker, offering clients a range of luxury power and sailing boats. We bring together some of the world's leading vessels backed up by a full service facility. The highly professional sales and service team ensures clients receive industry leading customer care, so the time they spend with us translates to quality time for them on the water.*

Flagship marine has a full time position available for a qualified 230 Volt Marine Electrician with experience in low voltage DC systems.

Please only apply for this position if you have had a minimum of 2-3 years' experience in this field, and have a good understanding of electrical systems.

Much of the work has close parallels to the duties of an Automotive Electrician, as well as an industrial electrician working with 230V.

As technology is constantly changing, we need someone that is currently working with marine systems and takes pride in their workmanship.

Your main role is electronic & electrical fault finding, service and install. Air-conditioning and refrigeration knowledge will be an advantage. Our preference would be someone that possess a range of complementary skills. Taking ownership of the role and having an eye for detail is important to us. It can be a demanding industry; our clients have very high expectations so you will need to cope well under pressure.

The successful applicant in this exciting and growing industry will be well presented, have a full NZ driver's license and a keen interest in the marine industry. A high level of verbal & written English communication skills are essential. You will be able to operate with a high level of autonomy which in turn requires time management skills & trustworthiness.

Company vehicle, cell phone, uniform supplied. Wage and package details can be discussed in an interview and will reflect the applicant's level of skill.

This position is based in Westhaven, Auckland; however we offer an on-site service to our clients so you will be working at all Auckland City Marinas, boat parks etc.

Applicants for this position should have NZ residency or a valid NZ work visa.
